

RepRisk Due Diligence Scores

Product overview

Thematic and off-the-shelf metrics

Proactively identify and mitigate business conduct and ESG risk for your investments, customers, and suppliers based on criteria that matter to you:

- Individual E, S, and G pillars
- Frameworks such as the SDGs, SFDR, SASB, the German Supply Chain Act, and Modern Slavery Acts
- Specific issues and topics, including human rights, nature and biodiversity, corruption, and many more out of 200+ ESG factors

Why Due Diligence Scores?

- **Ready-to-use:** Choose from our broad range of packages or customize your own set to match your unique risk priorities. Evaluate risk for individual factors on a scale of 0 to 100.
- **Transparent methodology:** Gain access to the underlying methodology for a clear understanding of the factors influencing a company's risk exposure.
- **Best-in-class data:** Built on 17+ years of due diligence-grade data, trusted by the world's leading financial institutions.

Ease-of-use meets transparency

Seamless integration of business conduct and ESG due diligence with thematic and off-the-shelf metrics to align your internal policies across business activities and relationships.

Asset managers, owners, or index providers: apply norms-based screening, including private equity/debt (e.g., human rights due diligence)

Multinationals: implement business conduct standards and solutions to comply with regulations (e.g., German Supply Chain Act)

Banks and insurance companies: screen companies for KYC and transaction due diligence processes

Partners: integrate into framework solutions (e.g. SFDR compliance or SDG alignment)

Data Feed samples

Identify companies at risk of violating ESG norms related to individual E, S, and G pillars or any of RepRisk's 28 ESG Issues

Overall ESG				63	
Environment	44	Social	43	Governance	60
